MICHAEL WEGERER. BOUNCING BORDERS

Daten, Skulptur und Grafik / Data, Sculpture and Graphic

Wegerer became internationally known for his graphic paper sculptures, space installations, and interdisciplinary exhibition projects. The publication represents a cross-section through his artistic oeuvre – starting with the latest graphics work and exhibitions it explores the creative processes and artistic concepts of the work, both topically and diagrammatically.

Pictures of completed work and image spreads specifically designed for the publication are juxtaposed with essays and text contributions from authors from the worlds of art, philosophy and music. Two invited artists, Judith Unterpertinger and Barbara Höller, even designed visual interventions as a reply to the artist's design position.
